### PROFILE INFO

I am an aspiring Computer Hardware Specialist currently pursuing a Bachelor's degree in Computer Engineering at NCST. Passionate about technology, I have hands-on experience in computer building, hardware troubleshooting, and software optimization. My goal is to expand my technical skills and contribute to the tech industry through innovative solutions.

### EDUCATION

2025

NATIONAL COLLEGE OF SCIENCE AND  
TECHNOLOGY (NCST)

- Bachelor of Science in  
Computer Engineering

2022-2024

NEW GENERATION

INTERNATIONAL SCHOOL

- STEM (Science, Technology,  
Engineering, and Mathematics)

### SKILLS

- Hardware Troubleshooting
- Software Troubleshooting
- Computer Building
- Coding
- Software Optimization
- Problem-Solving
- Technical Support

### LANGUAGES

- FILIPINO (Fluent)
- ENGLISH (Fluent)
- CEBUANO (Basics)

### WORK EXPERIENCE

- Currently developing expertise in computer hardware, game development, and programming through academic projects and personal initiatives.

### SERVICES

- C++ Programming - Basic coding and problem-solving in C++. Continuously improving skills.
- C# & Unity Game Development - Developed a basic game in school using Unity Engine.
- HTML & CSS - Can create basic web structures with proper styling principles.
- Software Optimization - Troubleshooting and optimizing software for better performance.
- PC Building & Maintenance - Assembling, upgrading, and maintaining computer systems.

### HOBBIES & INTERESTS

- Gaming
- Basketball & Table Tennis
- Keyboard Modding
- Computer Building
- Artificial Intelligence
- Data Management
- Computer Hardware Design.
